Subject: RE: tank 5 refill and corrosion points
Attachments: talking points tank 5 refill corrosion final_LTUNM.docx

Hi Thu,

We've added some key messages to the document as a high level version of the same points made in the Q&A. I think your content looks good, I didn't edit anything except removing the line you mentioned redacting. We think it would be a good idea for this document to include something about the status of the contested case hearing as there will likely be questions.

Once we have a version that everyone is happy with (I think this is close) I'd like to pass this by our press officer out in Hawaii to help him get familiar with the potential questions we anticipate receiving. His name is Alejandro Diaz and he recently replaced Dean Higuchi. He will likely reach out to Janice to make sure they have a shared strategy for handling questions as they come in. Just wanted to let you know that he will be in the mix and may be reaching out to touch base with you or Janice.

Thanks for pulling this together.

Subject: tank 5 refill and corrosion points

Hello EPA,
Here are some talking points that we have drafted.
Feel free to edit and/or add to.

Let us know if a follow-up discussion is warranted.
thank you,
